

## Power Distribution—Din mounted PSU

Our industrial standard DIN-Rail mounted AC-DC 120w and 400w power supplies provides stable power for optimum performance. Both power supply units offer a wide range of input voltages to ensure variability of use. The compact design of both units is excellent for space saving and designed to withstand harsh environments with industrial equipment.

### Power Supplies—48V PSU 120W

Specifications	
<b>Standard</b>	RoHS compliant
<b>Input voltage</b>	AC: 85—264 VAC DC: 120—370 VDC
<b>Input Current</b>	115VAC<1.5A 230VAC<0.75A
<b>Input Connector</b>	IEC C14 Type
<b>Output voltage</b>	400V ± 1
<b>Output current</b>	2.5A
<b>Output connector</b>	5-way screw terminal
<b>Operating temperature (°C)</b>	-40—+70
<b>Max Capacitive Load (μF)</b>	30,000

### Power Supplies—48V PSU 400W

Specifications	
<b>Standard</b>	RoHS compliant
<b>Input voltage</b>	AC: 85—264 VAC DC: 120—370 VDC
<b>Input Current</b>	115VAC<5A 230VAC<2.5A
<b>Input Connector</b>	IEC C14 Type
<b>Output voltage</b>	400V ± 1
<b>Output current</b>	10A
<b>Output connector</b>	5-way screw terminal
<b>Operating temperature (°C)</b>	-30—+70
<b>Max Capacitive Load (μF)</b>	2700
